About Us

Crevis focuses on remote I/O products for factory automation. This focus has grown into a comprehensive product line of modular remote I/O terminals and vision systems. In 2018, Crevis introduced products to the US market by creating a network of high-tech distributors. These partner companies provide local sales and service to customers throughout the United States

e-F@ctory Solutions Provided

More than 100 compact I/O products like Loadcell, 3-phase measurement, high-speed counters, PWM, HART, temperature controllers etc. enable users to customize and optimize automation systems depending on their own application and environment.

Complementary Products

Controllers and Remote I/O

Core Technology
