About Us

Hilscher is the leading technology and solution provider in industrial communication. With products and solutions from Hilscher, machines worldwide communicate with each other automatically, quickly and securely, so that production and processes run smoothly. Hilscher was founded in 1986 in Hattersheim am Main and has since developed into an internationally active company with more than 400 employees at 13 locations worldwide.

e-F@ctory Solutions Provided

From turn-key products to highly integrated solutions and complementary software, Hilscher is your partner for industrial communication.

- Protocol converters to translate between Fieldbus and Industrial Ethernet networks
- Communication cards for all common form factors and industrial protocols
- Embedded communication solutions with secure and flexible network controllers and embedded modules
- Industrial protocols for controller and device applications including CC-Link
