

## Optional Controller Software

### GX Configurator

GX Configurator is a set of tools specifically designed for the Q Series family of special function modules. The GX Configurator CD contains the following software configuration titles as well as their respective manuals.

Model Number	Description	Stocked Item
<b>GX-CONFIG-C1</b>	Single user license - can be used on 1 computer at a time. Includes 1 CD-ROM containing both software and electronic manuals	S
<b>GX-CONFIG-C1-SMA</b>	SMA FOR GX-CONFIG-C1	-

Titles included on the GX CONFIGURATOR CD. The titles below are not sold separately.

Plug-In Title	Description	Manual	Stocked Item
<b>GX Configurator-AD</b>	Analog-Digital converter modules: Q64AD, Q68ADV, A68ADI	SH(NA)080055	-
	Channel Isolated High Resolution Analog-Digital Modules (w/without Signal Conditioning Function): Q64AD-GH, Q62AD-DGH	SH(NA)080277	-
<b>GX Configurator-DA</b>	Digital-Analog Modules: Q62DA, Q64DA, Q68DAV, Q68DAI	SH(NA)080054	-
	Channel Isolated Digital-Analog Module: Q62DA-FG	SH(NA)080281	-
<b>GX Configurator-TI</b>	Thermocouple Input Modules - Channel Isolated Thermocouple/Micro Voltage Input Modules: Q64TD, Q64TDV-GH	SH(NA)080141	-
	Thermocouple Input Module: Q64RD	SH(NA)080142	-
<b>GX Configurator-CT</b>	Channel Isolated Pulse Input Module: QD60P8-G	SH(NA)080313	-
	High Speed Counter Modules: QD62, QD62E, QD62D	SH(NA)080036	-
<b>GX Configurator-DN</b>	DeviceNet Master-Slave Module: QJ1DN91	SH(NA)080143	-
<b>GX Configurator-SC</b>	Serial Communications Modules: QJ71C24, QJ71C24-R2	SH(NA)080006	-
	Serial Communications Module Protocol FB Support	SH(NA)080393	-
<b>GX Configurator-TC</b>	Temperature Control Modules: Q64TCTT, Q64TCTTBW, Q64TCRT, Q64TCRTBW	SH(NA)080121	-
<b>GX Configurator-PT</b>	Positioning Modules: QD70P4, QD70P8	SH(NA)080171	-
<b>GX Configurator-AS</b>	AS-i (OZZI) Network Master Module: QJ1AS92	SH(NA)080291	-
<b>GX Configurator-MB</b>	Modbus® for the QJ71MB91	SH(NA)080578	-

Modbus is a registered trademark of Schneider Electric.

### GX Configurator-QP

Sold as a separate configuration utility software title, GX Configurator-QP is used to configure and maintain systems using the QD75 family of motion control modules.

Model Number	Description	Stocked Item
<b>GX-CONFIG-QP-C1</b>	Single user license - can be used on 1 computer at a time. Includes 1 CD-ROM containing both software and electronic manuals Includes support for the QD75P1, QD75P2, QD75P3, QD75D1, QD75D2, QD75D3, QD75M1, QD75M2 & QD75M3 motion modules	S
<b>GX-CONFIG-QP-C1-SMA</b>	SMA FOR GX-CONFIG-QP-C1	-
<b>IB(NA)0800261</b>	GX-Configurator-QP Operating Manual*	-
<b>SH(NA)080058</b>	QD75P1-P2-P4-D1-D4 Positioning Modules Manual*	-

**Note:** All manuals come free of charge on the software CD-ROM in Adobe Acrobat® Reader format. A free copy of the Acrobat Reader program is also included on the software CD. If hard copies of the manuals are desired, please refer to the manual model numbers listed.

### GX Configurator-CC

Sold as a separate configuration utility software title, GX Configurator-CC enables users to graphically configure and maintain a CC-Link network.

Model Number	Description	Stocked Item
<b>GX-CONFIG-CC-C1</b>	Single user license - can be used on 1 computer at a time. Includes 1 CD-ROM containing both software and electronic manuals. Includes support for all MELSEC A, QnA and Q Series CC-Link networks	S
<b>GX-CONFIG-CC-C1-SMA</b>	SMA FOR GX-CONFIG-CC-C1	-
<b>SH(NA)080103</b>	GX-Configurator-CC Operating Manual*	-
<b>IB(NA)66721</b>	AJ61BT11 - A1SJ61BT11 User's Manual*	-
<b>IB(NA)66722</b>	AJ61QBT11 - A1SJ61QBT11 User's Manual*	-
<b>IB(NA)66781</b>	RS-232 Interface Module AJ65BT-R2	-
<b>SH(NA)080016</b>	QJ61QBT11 User's Manual*	-

**Note:** All manuals come free of charge on the software CD-ROM in Adobe Acrobat® Reader format. A free copy of the Acrobat Reader program is also included on the software CD. If hard copies of the manuals are desired, please refer to the manual model numbers listed.

### GX Configurator-DP

GX Configurator-DP is a Windows® based programming package allowing the user to graphically design and configure a PROFIBUS network. GX Configurator-DP then transfers the configuration information to Mitsubishi PROFIBUS modules.

Model Number	Description	Stocked Item
<b>GX-CONFIG-DP-C1</b>	Single user license - can be used on 1 computer at a time. Includes 1 CD-ROM containing both software and electronic manual. Support PROFIBUS modules include A71PB92D, A1SJ71PB92D and QJ71PB92D	-
<b>GX-CONFIG-DP-C1-SMA</b>	SMA FOR GX-CONFIG-DP-C1	-
<b>SH(NA)080127</b>	GX-Configurator-DP PROFIBUS-DP Interface Module User's Manual*	-
<b>IB(NA)66569</b>	PROFIBUS Interface Module AJ71PB92	-

**Note:** All manuals come free of charge on the software CD-ROM in Adobe Acrobat® Reader format. A free copy of the Acrobat Reader program is also included on the software CD. If hard copies of the manuals are desired, please refer to the manual model numbers listed.

### GX Configurator-AP

Sold as a separate configuration utility software title, GX Configurator-AP is used to configure and maintain systems using the AD75M family of motion control modules.

Model Number	Description	Stocked Item
<b>GX-CONFIG-AP-C1</b>	Single user license - can be used on 1 computer at a time. Includes 1 CD-ROM containing both software and electronic manual. Includes support for AD75P1, AD75P2, AD75P3, AD75P1-S3, AD75P2-S3, AD75P3-S3, AD75M1, AD75M2, AD75M3, A1SD75P1, A1SD75P2, A1SD75P3, A1SD75P1-P3, A1SD75P2-S3, A1SD75P3-S3, A1SD75M1, A1SD75M2, A1SD75M3, and AJ65BT-D75P2-D3 (CC-Link device station)	-
<b>GX-CONFIG-AP-C1-SMA</b>	SMA FOR GX-CONFIG-AP-C1	-
<b>IB(NA)66900</b>	GX-Configurator-AD Operating Manual*	-

**Note:** All manuals come free of charge on the software CD-ROM in Adobe Acrobat® Reader format. A free copy of the Acrobat Reader program is also included on the software CD. If hard copies of the manuals are desired, please refer to the manual model numbers listed.
